

Marshall Islands

The Republic of the Marshall Islands (RMI) does not provide any form of support to non-State actors that attempt to develop, acquire, manufacture, possess, transport, transfer or use nuclear, chemical, or biological weapons and their means of delivery. Section 12 of the Counter Terrorism Act, 2002 authorizes the Marshall Islands to obtain an injunction against the development, production, stockpiling, transferring, acquisition, retention, or possession of any biological agent, toxin, toxic chemical or delivery system of a type or in a quantity that under the circumstances has no apparent justification for prophylactic, protective, or other peaceful purposes, or purposes not prohibited by law or the United Nations Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction. Section 24 of the Counter Terrorism Act requires all airlines, ships, and other entities providing transportation, conveyance or freight services to and from RMI to immediately report to the Attorney General cross-border movement of nuclear, chemical, biological and other potentially deadly materials. Section 25(1)(a) of the Counter Terrorism Act criminalizes the development, production, shipping, transportation, transfer, receiving, acquisition, retention, possession, importation, exportation, and manufacturing of weapons of mass destruction. There is no production, use, storage or transport of nuclear, chemical, or biological weapons in RMI.

Border Patrol

Section 24 of the Counter Terrorism Act, 2002 obligates all airlines, ships, and other entities that provide transportation, conveyance or freight services to and from RMI to immediately report traffic in arms, explosives, sensitive material, and cross-border movement of nuclear, chemical, biological and other potentially deadly materials. Section 8 of the same Act authorizes seizure, confiscation and forfeiture of weapons of mass destruction, plastic explosives, and nuclear material.
