17th International Forensic Science Managers Symposium

LYON, 8-10 OCTOBER 2013

Purpose statement

The triennial INTERPOL Forensic Science Symposium is a forum for laboratory managers from all member countries to facilitate:

- a) the presentation of advances made in scientific methods over the previous 3 years;
- b) the exchange of information which will enhance scientific methods in criminal investigation and the administration of justice;
- c) the discussion of problem areas encountered by member countries and the possible provision of solutions by the combined experience and expertise of the participants;
- d) the exchange and pooling of ideas for progress in the future.
