# OPERATION INFRA

INTERPOL'S operation to locate and arrest fugitives worldwide

Operation Infra (**International Fugitive Round-Up and Arrest**) is a global INTERPOL initiative to locate and arrest serious international fugitives who are on the run from justice.

Organized by the Fugitive Investigative Support (FIS) unit, Operation Infra focuses on cases of fugitives wanted for serious crimes such as murder, child sexual abuse, drug trafficking, organized crime, people smuggling, human trafficking and money laundering.

Operation Infra brings together law enforcement officers from around the world in order to locate and arrest criminals who have fled their national jurisdiction.

## INTERPOL'S ACTIVITIES

Operation Infra-Red (International Fugitive Round-Up and Arrest – Red Notice) has four main objectives: to promote the global exchange of information concerning the whereabouts of fugitives wanted for serious crimes, believed to be residing abroad, with the objective of confirming their current location and status; to enhance networking between fugitive investigators and specialized units; to increase the number and enhance the quality of INTERPOL Notices and diffusions (law enforcement alerts) for fugitives involved in serious crimes; and to enhance the quality of the data stored in INTERPOL's databases regarding fugitives.
