

RESOLUTION No. AGN/35/RES/1

SUBJECT:

PHOTOTELEGRAPHY

TO BE CLASSIFIED AS FOLLOWS:

1 copy in the CHRONOLOGICAL SERIES:
year 1966

1 copy in the SUBJECT SERIES

Heading: Telecommunications-ICPO Interpol
Radio Network

Sub-heading: Phototelegraphy (transmission
of pictures)

TEXT OF RESOLUTION

AFTER DISCUSSION of Interpol telecommunications during the plenary session on 31st August 1966 (the minutes of which are to be found under the reference PV/3) and

IN VIEW OF the benefits to be derived from the use of phototelegraphy for transmitting facsimiles of identity documents between police departments in different countries, and

IN VIEW OF THE FACT THAT such exchanges are now technically feasible, and

IN VIEW OF THE FACT THAT the fastest and most economical method of operation is a direct phototelegraphic contact between police departments' facsimile-image transmitter-receivers (a method which has proved itself at national level in some countries), but

IN VIEW OF THE FACT THAT this method of operation is not allowed by the present international telecommunication regulations;

The ICPO-INTERPOL General Assembly, meeting in Berne from 31st August to 7th September 1966 at its 35th session:

INSTRUCTS the General Secretariat to negotiate with the International Telecommunication Union to see these regulations amended for the benefit of police departments.
