IGLC

INTERPOL GLOBAL LEARNING CENTRE

Learning resources for police
worldwide

One of INTERPOL's priorities is to build international policing capabilities by providing access to expert knowledge, training and the exchange of best practices.

The INTERPOL Global Learning Centre (IGLC) is a secure e-learning platform that complements in-person workshops and is available to the police community around the world.

ICLG - INTERPOL GLOBAL LEARNING CENTRE

SERVICES

The IGLC offers authorized users a comprehensive range of training services, including a learning management system called "I-Learn".

I-Learn contains 70 e-learning modules and is compatible with mobile devices.

Training topics focus on investigative skills related to INTERPOL's three global programmes (Counter-Terrorism, Cybercrime, and Organized and Emerging Crimes), and the practical use of the Organization's policing capabilities (databases, forensics, etc.).

The system allows trainees to track their progress, interact with an online community and receive certificates of completion.

2018 marks the launch of INTERPOL webinars.

Delivered using web-based video conferencing software, webinars are an effective way to reach a large audience in real time. They can include interactive elements, such as live chat and the ability to share files.

INTERPOL webinars will raise further awareness of the wide range of topics covered in I-Learn.

ACCESS FOR AUTHORIZED USERS

Law enforcement officials can access I-Learn in two ways:

- **Via INTERPOL's I-24/7 network**

Any INSYST user can access I-Learn, once connected to his/her INSYST account, through the link below:

<http://i247.ip/i247/INTERPOL-expertise/Training-and-capacity-building/IGLC/IGLC>

- **Via INTERPOL's HTTPS website**

Any user of the secure HTTPS website can access I-Learn, once connected to his/her HTTPS account, through the link: <https://secure.interpol.int>

HTTPS access: New requests should be sent to the relevant INTERPOL National Central Bureau (NCB), specifying the user's full name, e-mail address and function.

The NCB will validate and send the approved names to iglc@interpol.int.

The General Secretariat will then send a username and password to the requester.

I-Learn access: Staff from an international organization that has a Cooperation Agreement (specifying access to IGLC) with INTERPOL may contact the IGLC directly to request an account: iglc@interpol.int
